MORE INFO**

NEW Pioneer® hybrid P1481 is a true Dual-Purpose corn hybrid suited to feed or silage production and has been bred in Australia for adaptability to the tough Australian conditions.

P1481 is a hybrid packed with advanced genetics and traits that has been developed for its exceptional grain yield in all Australian environments. Silage growers will enjoy the additional advantages brought from the excellent plant structure and staygreen. P1481 exhibits outstanding drought tolerance and well-round disease package, making this hybrid the number one feed/silage hybrid in Australia.

Key Features

- Pioneer's new leader for feed-grain and silage yield performance
- New genetics bring a robust trait combination of stalk strength, drought tolerance, NLB & cob rot resistance
- Exceptional silage yields while maintaining high quality
- Excellent staygreen
- Adaptable across all growing regions, dryland and irrigation
