GRAIN SORGHUM TECHNICAL FACT SHEET

A75

Medium Maturity Grain Sorghum

Even finisher offering yield opportunity.

To maximise returns from grain sorghum, plant A75 into better dryland or irrigation country. Known for it's even tillering, A75 will give you yield increase in great seasons but will also look after you when the season finishes on a tougher note.

Key Features

- High, even tillering delivers high yield opportunity with even maturity for harvest
- Very good grain size reduces screenings and maximises test weight results
- High plant vigour ensures reliable plant establishment and root growth
- Good standability means more grain presented to the header to harvest
- Good harvest drydown gets headers in the paddock quicker
